

SOLIDS PROCESSING

PHARMACEUTICAL

Granulator

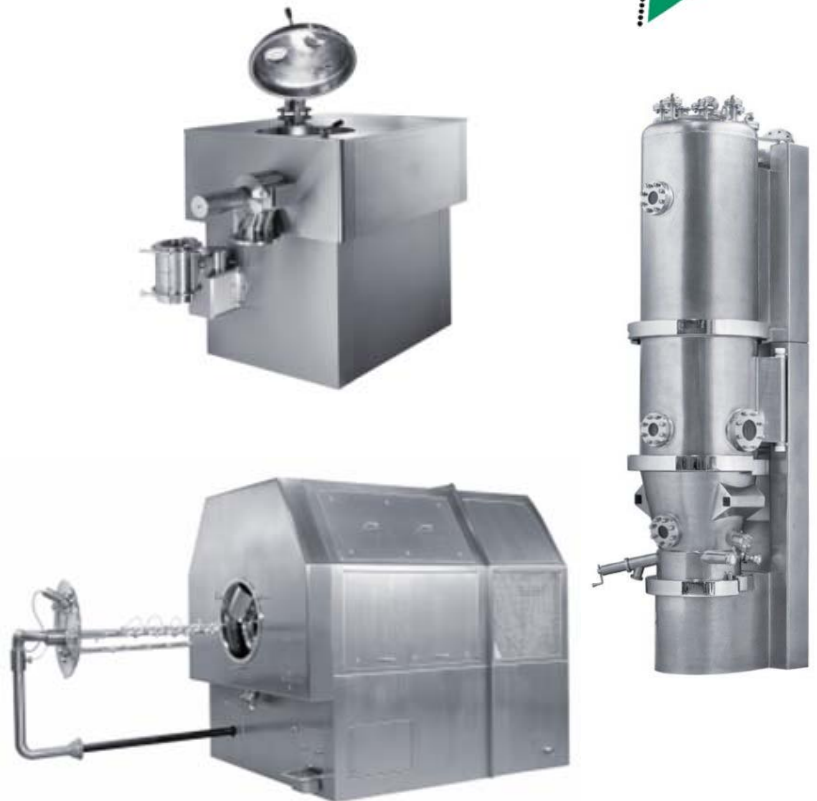

- Mixer and wet sieve combined
- Straight mixer wall for easy impeller removal
- Short operation times, low liquid requirement

Fluid Bed Processor

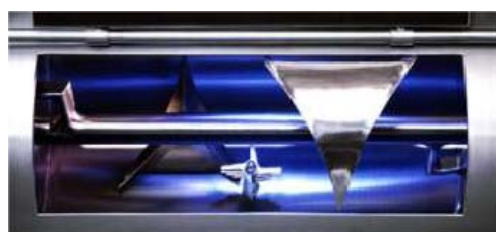

- Dry, granulate, coat, heat/cool
- 150 psi pressure burst resistance
- Jet filters offer better cleaning results than shakers
- Top spray system easily adapts to product volume

Tablet Coater

- Partially perforated or fully perforated coating pan
- Interchangeable perforations
- System inspection from all sides
- High drying efficiency
- Good cleanability
- Universal or turnkey designs

CHEMICAL

Mixer-Dryer-Reactor

- Ploughshare® mixer
- DVT® Dryer/Reactor
- Large inspection doors
- Heating/cooling jacket
- Heavy-duty choppers
- Machine sizes of 5-50.000L
- GMP or chemical design
- Custom designs
- Mix and granulate
- Coat particles
- Continuous and batch
- Emulsion mixer
- Laboratory and production scale
